Thomas & Friends™: Explore the Rails Visiting Exhibit Back by Popular Demand at Mississippi Children’s Museum

Jackson, Miss. (April 27, 2018) - The world’s most beloved #1 blue engine rolls back into the Mississippi Children’s Museum (MCM) this summer. Thomas & Friends™: Explore the Rails, an interactive exhibit created by Minnesota Children’s Museum and inspired by the popular children’s series will steam into the Gertrude C. Ford Exhibition Hall from May 26 through September 9, 2018. This exhibit is locally sponsored by Trustmark Bank and Atmos Energy.

Featuring the favorite engines and destinations from Thomas & Friends™, the STEM (Science, Technology, Engineering, and Math) -focused exhibit seeks to engage children, ages 2 through 7 years, and families in foundational skills that foster STEM literacy through playful learning experiences. The exhibit incorporates foundational STEM practices that encourage thinking mathematically, making comparisons, experimenting to solve problems using a variety of methods and tools, thinking creatively, and reflecting on actions and results.

“Thomas & Friends™: Explore the Rails will deliver high-quality playful learning experiences rooted in science, technology, engineering, and math for millions of children across the continent.”

Visitors to the 1,500 square foot exhibit will be delighted as they find themselves surrounded by the Island of Sodor’s iconic locations: Knapford Station, Sodor Steamworks, and much more. In the exhibit, children help Thomas and his friends solve a variety of challenges, from simple sorting and shape identification activity to more complex engineering obstacles, such as completing a train track using track pieces with different levels of elevation. As children confront new challenges and test their abilities, the smiling faces of Thomas, Percy, Victor and others are there to offer encouragement and remind children how “really useful” they all are.

The Thomas & Friends™: Explore the Rails exhibit was designed and developed by Minnesota Children’s Museum in partnership with HIT Entertainment, a subsidiary of Mattel, Inc. Fisher-Price, the #1
Infant/Preschool Toys manufacturer, is the presenting sponsor for the exhibit. 3M is the national tour sponsor.

Inside the Exhibit:
- Climb into Thomas' cab and explore the engine's inner workings. Flip levers and investigate other moveable parts that trigger train noises such as braking, whistles and steam.
- Fix Percy's wobbly wheel by removing and replacing parts and experimenting to find a combination of wheels, rods and bolts that work.
- Explore the favorite Island of Sodor destinations including: Tidmouth Sheds, Brendam Docks and the Sodor Search & Rescue Station on an over-sized Thomas Wooden Railway train table.
- Work with old and new friends loading luggage, livestock and other freight into the coaches of two train cars.
- Collaborate with others to get Percy moving by loading coal into his coal box and filling his tank with water from a water tower.
- Suit up as the conductor to exchange money and sell tickets to other visitors taking a ride on the train.
- Wander through a Thomas & Friends™ retrospective featuring model engines from the original live action series produced in London, copies of the original drawings and manuscripts from the Rev. W. Awdry, the creator of Thomas & Friends™, and a collection of memorabilia documenting the history and evolution of Thomas & Friends™ through books, television, and toys.

About Minnesota Children’s Museum
For more than 30 years, Minnesota Children’s Museum has combined early childhood research and best practices to provide children and families with hands-on experiences that develop healthy minds and bodies, build critical and creative thinking skills and prepare children for success in school and in life. A non-profit community organization and leading cultural institution, the Museum serves more than 450,000 children and adults each year through immersive experiences and environments that encourage children’s active exploration and adult engagement.

As the nation’s leading developer of traveling children’s museum exhibits, the Museum is a trailblazer in creating immersive learning environments, reaching more than 15 million children and adults in the United States, Canada and Mexico through the nation’s largest collection of children’s traveling exhibits. The Museum is consistently rated as one of the top children’s museums in the country by national media outlets like Forbes and Parents and was recently named as a finalist for an Institute of Museum and Library Services Medal of Service, the nation’s highest honor conferred on museums and libraries.
